Thu 26 Oct 2023 - Phil Cooling FRPS - Weird and Wonderful...ish presentation

7:30pm

My presentation takes you on a journey from my early days with digital photography to achieving my F.R.P.S in 2014.

My early work is dreadful...I took anything & everything and then threw the photoshop kitchen sink at them to add impact. I quickly got through this phase and began to produce images that won club competitions and gained entry to International Salons. This was my Wonderful...ish period but then I moved on to specializing in creative composite images, which some may find weird, but became the subject of my successful F.R.P.S. panel.

There should be something in the presentation for everybody and I look forward to sharing my journey with you.
